About TR-CERT

TR-CERT Mission Statement:

The mission of TR-CERT is to help institutions and organizations throughout the country in gaining the ability to deal with computer security incidents; and to respond to computer security incidents when they happen.

TR-CERT Services**Incident Response Coordination**

Computer security incidents generally extend beyond the borderlines of institutions and countries. TR-CERT provides for coordination with institutions and organizations and cooperation with other countries in relation to such incidents.

CERT Support

TR-CERT gives training and consultation services for the creation of CERTs within institutions and organizations; or for helping such institutions and organizations in gaining the ability to handle computer security incidents.

Constituency

TR-CERT gives services throughout the country.

Relationship with Constituency

TR-CERT works on the basis of volunteering.
