National Cambodia Computer Emergency Response Team

Who We Are

Cambodia Computer Emergency Response Team (CamCERT) is the National Computer Emergency Response Team for Cambodia and provides a point of contact for dealing with computer security incidents affecting the Internet community in Cambodia.

CamCERT provides computer information security advice to and cooperates closely with the Cambodian Government, Internet Service Providers (ISP/IX), local/international CSIRTs, as well as the Cambodian public including ICT vendors, National Security Communities, and corporate/individual users.

CamCERT is a non-profit team of IT security professionals, under National ICT Development Authority (NiDA), The Council of Ministers. It was formed on 13th December 2007 by Decision #119 S.S.R by The Council of Ministers, and has started its operation in October 2008.

Vision

Building confidence and security in the use of ICT in Cambodia.

Mission

To maximize the security of Internet environment within the nation.

Tasks

- Collect, Investigate and Respond to all Cyber Crime Attacks
- Work as National Focal Point of Contact (POC)
- Training, Promote and Improve the IT Security Nation Wide
- Collaboration with Local and International CERTs
- Cyber Crime Law Initiative
- Establishment of National Network Monitoring Center
- IT Security Standard and Norm
- Development of Cyber Security Platform (CNII)
