----------------------	---------------------------------	------------------------------	----------------------------------	---------------------------------

## What We Do

### ព័ត៌មានបញ្ចូលចុងក្រោយ

Our Activities including but not limit to

- Provides a point of contact for reporting computer security incidents.
- Gathers widely-publicized computer security related information to find information on vulnerabilities and other incidents on the Internet.
- Provides valuable computer security related information to the Internet users in Cambodia, in order to understand the recent threats of Internet security and to take appropriate actions to mitigate the risks of the threat.
- Security Alert – Provides up-to-date information about current security issues, vulnerabilities, etc.
- Technical Tips – Provides advice about the common computer security issues.
- Advisory – Provides advisory about the vulnerabilities,... etc.
- Develops relationships with the Cambodian Government, Internet Service Providers (ISP/IX), local/international CSIRTs, as well as the Cambodian public including ICT vendors, National Security Communities, and corporate/individual users, in order to cooperate closely in dealing with computer security incidents affecting the Internet community in Cambodia.
- Training and Conference/Seminar
