About CCI

UCD Centre for Cybersecurity & Cybercrime Investigation (CCI) is a unique, world-class education and research centre with strong and well-established collaborative relationships with law enforcement and industry.

We work in the areas of [education](#), [training](#), [research](#) and tool development.

Many of our education programmes can be taken entirely [online](#), with the student only attending for exams each year. Taking the part-time option allows participants to fit their study around family and work commitments. To date participants from 42 countries have benefited from this uniquely flexible approach to cybercrime education.
