About GOV-CERT.RU

GOV-CERT.RU is a name of CSIRT (Computer Security Incident Response Team) responsible for governmental networks of Russian Federation. The goal of GOV-CERT.RU is to provide coordination of state authorities, local authorities and law enforcement units on identifying, prevention and removing consequences of computer incidents concerning state information-telecommunication networks.

GOV-CERT.RU provides the following services:

- Incident response assistance and consultation;
- Incident response coordination;
- Alerts and warnings about critical security threats;
- Gathering and analysis data concerning incidents in state information-telecommunication networks.
